A Society Programme.

By
President, B.F. Avery.

For the purpose of keeping the membership better informed of the progress being made in forestry in Canada, your Executive has considered it advisable to ask certain members of the Society to act as clearing-houses for information upon the subjects assigned and to endeavor to stimulate interest in the subject on the part of other members.

It is the hope of the Executive that the membership will respond to any request for assistance in carrying out the programme outlined below, to the end that the information gathered and reported upon in the Chronicle may be a true and complete description of accomplishment.

1. Formation of Sections of the Society.

Preparing a plan for the formation of Sections of the Society, to be submitted to the Society by letter ballot, and if this plan is approved, acting as sectional correspondent as the Sections of the Society are formed.

Dr.C.D. Howe.

2. Eligibility for Membership in the Society.

To lead a discussion, not for the purpose of establishing a code of ethics, but to bring about a discussion of the ethical establishment of membership, and following a complete discussion, to propose an amendment, regarding membership.

P.Z. Caverhill.

3. Status of Forest Research.

Not programmes, but an account of what is actually being done in the various provinces.

Dr. White.

4. Forest Planting for Commercial Purposes.

How much is being done by private and government corporations.

Ellwood Wilson.

5. Advance in Fire Protection Methods and Equipment.

C.R. Mills.

6. Digest of Timber Cutting Regulations

in the various provinces and changes made
from time to time.

D.R. Cameron.

7. Slash Disposal.

How much is being done by various
organizations.

Col. Stevenson.

8. Forest Pathology.

Studies being made, and progress in control
of forest diseases.

Dr.J.H. Faull.

9. Forest Entomology.

Studies being made, and progress in control
of devastating forest insects.

Dr. Swaine.

10. Forest Practice.

Examples of, and progress in constructive
woods operations.

J.D. Gilmour.
